TRAVEL

The Coho Oceanfront Lodge offers modern amenities for both couples and families at the Oregon Coast. The newly renovated hotel offers breathtaking ocean views, a complimentary wine social on Fridays, in-room massage service, free deluxe continental breakfast, fresh ground Portland Roasting coffee, and a French press in every room. The older building has been redesigned with vibrant, elegant, and modern touches of an urban upscale boutique hotel. Careful attention to detail makes The Coho a wonderful place to relax and unwind in style. Adirondack chairs for each balcony, spa robes,

bamboo blended bath towels, Sealy Posturpedic Plush Supreme Beds, luxury linens, eco-friendly bath amenities, LCD flat screen HDTV, HD DVD players, and iHome iPod docking stations are just some of the extra touches that set the hotel above the rest. Family suites have separate sleeping rooms. The kids suite is decorated in surf boards and situated with bunk beds, a Wii or PS3 game system, and fun snacks like salt water taffy. Several rooms offer unobstructed, panoramic ocean views, such as the Sunset Suite, which was designed with pampering in mind. A jetted Jacuzzi tub perfectly position-

ed for direct ocean views, a personal balcony, and gas-burning fireplace, make this suite the perfect place for a romantic excursion. Evenings would not be complete without taking in the majestic ocean sunset, while staying at the coast. The Coho offers 3 gas burning fire pits with unobstructed ocean views and comfortable seating. Sunset viewing is at it's best at The Coho.
